

Lennoxville Elementary School Curriculum Outline - Cycle 3

MATHEMATICS

- ❖ The math program is created to promote the development of various concepts such as number sense, geometry, measurement, fractions and decimals.
- ❖ The math program also introduces the children to math language and teaches them to make the link between math and the real world.
- ❖ Children are encouraged to develop positive mindsets towards math.
- ❖ A large emphasis is also placed on solving situational problems.
- ❖ The Decimal workbook/worksheets are used to support the math program.
- ❖ Evaluation takes place through teacher observation, self-evaluation and formal testing.

LANGUAGE ARTS

- ❖ The goal of the Language Arts Program is to offer a supportive, environment which uses language in meaningful contexts.
- ❖ The students are exposed to a wide variety of texts through novels, poetry, short stories, visual media literacy.
- ❖ Students will take part in the writing process of drafting, revising, editing, and publishing.
- ❖ Independent reading and writing is fostered through the Daily Five approach.
- ❖ Students will continue to develop their oral communication skills through sharing, small group interactions, and presentations.

SCIENCE

- ❖ The science program is taught in English.
- ❖ The students will learn to explore the world of science and technology through projects, experiments and communication.
- ❖ An emphasis will be placed on the scientific method where the students are encouraged to ask scientific questions and then propose explanations or solutions to those problems.

SOCIAL STUDIES

- ❖ Social studies is taught in French (Univers social).
- ❖ Students will explore the geography and history of their country and province within a certain timeline.
- ❖ Students will interpret changes that took place over time while becoming more aware of the world around them.

FRENCH

- ❖ The students will continue to develop their reading, writing, and oral communication in French through various activities.
- ❖ As a class, we will read a variety of texts, from the “Littéracie en Action” texts and other sources which will prompt discussion and allow the students to practice their oral skills and build their vocabulary.
- ❖ The students will work in centers to allow each child to work at their specific level.
- ❖ Throughout the year your child will be assessed on their reading, writing, and oral skills in the form of assignments, formal tests, presentations, teacher evaluations and self-evaluations.
- ❖ It is very important that your child communicates in French during French class in order to continually improve their oral skills.

HOMEWORK SCHEDULE

Monday to Thursday:

- ❖ English home reading will be done through literacy circle books
- ❖ French home reading is 10 minutes per night
- ❖ Math (workbook and/or worksheets)

Students are responsible for writing their homework and due dates in their agenda.

All homework will be checked on Friday of each week.

END OF CYCLE EVALUATION (End of Grade 6)

- ❖ Students will be expected to write MEQ exams (ministry) in math and language arts. Students will be expected to write the board French exam. These exams will count for 20% of their final mark on the report card.
