

Lennoxville Elementary School
Curriculum Outline – Cycle 3

MATHEMATICS

- ❖ The math program is created to promote the development of various concepts such as number sense, geometry, measurement, fractions and decimals.
- ❖ The math program also introduces the children to math language and teaches them to make the link between math and the real world.
- ❖ Children are encouraged to develop positive mindsets towards math.
- ❖ Mathematics tools are used to support the math program.
- ❖ Evaluation takes place through teacher observation, self-evaluation and formal testing.

LANGUAGE ARTS

- ❖ The goal of the Language Arts Program is to offer a supportive, environment which uses language in meaningful ways.
- ❖ The students are exposed to a wide variety of texts through literature circles, poetry, short stories, visual media literacy.
- ❖ Students will take part in the writing process of drafting, revising, editing, and publishing.
- ❖ Students will continue to develop their oral communication skills through sharing, small group interactions, and presentations.

SCIENCE

- ❖ The science program is taught in English.
- ❖ The students will learn to explore the world of science and technology through projects, experiments and communication.
- ❖ An emphasis will be placed on the scientific method where the students are encouraged to ask scientific questions and then propose explanations or solutions to those problems.

SOCIAL STUDIES

- ❖ Social studies is taught in French (Univers social).
- ❖ Students will explore the geography and history of their country and province within a certain timeline.
- ❖ Students will interpret changes that took place over time while becoming more aware of the world around them

FRENCH

- ❖ The students will continue to develop their reading, writing, and oral communication in French through various activities.
 - ❖ As a class, we will read a variety of texts which will prompt discussion and allow the students to practice their oral skills and build their vocabulary.
 - ❖ Throughout the year your child will be assessed on their reading, writing, and oral skills in the form of assignments, formal tests, presentations, teacher evaluations and self-evaluations.

END OF CYCLE EVALUATION (End of Grade 6)

- ❖ Students will be expected to write MEQ exams (ministry) in math and language arts. Students will be expected to write the board French exam.
