

Lennoxville Elementary School
Curriculum Outline – 6G/6L

MATHEMATICS

- ❖ The math program is created to promote the development of various concepts such as number sense, geometry, measurement, fractions and decimals.
- ❖ The math program also introduces the children to math language and teaches them to make the link between math and the real world.
- ❖ Children are encouraged to develop positive mindsets towards math.
- ❖ The “Decimal” ERPI material will be used to support the math program.
- ❖ Evaluation takes place through teacher observation, self-evaluation and formative/summative testing.

LANGUAGE ARTS

- ❖ The goal of the Language Arts Program is to offer a supportive environment which uses language in meaningful contexts.
- ❖ The students are exposed to a wide variety of texts through novels, poetry, short stories and visual media literacy. They will be encouraged to respond in multiple ways to these texts and guided to deconstruct them in many ways.
- ❖ Students will take part in the writing process of drafting, revising, editing, and publishing.
- ❖ Students will continue to develop their oral communication skills through sharing, small group interactions, and presentations.

SCIENCE

- ❖ The science program is taught in English.
- ❖ The students will learn to explore the world of science and technology through projects, experiments and communication.
- ❖ An emphasis will be placed on the scientific method where the students are encouraged to ask scientific questions and then propose explanations or solutions to those problems.

SOCIAL STUDIES

- ❖ Social studies is taught in French (Universe social).
- ❖ Students will explore the geography and history of their country and province within a certain timeline.
- ❖ Students will interpret changes that took place over time while becoming more aware of the world around them

FRENCH

❖ The students will continue to develop their reading, writing, and oral communication in French through various activities.

❖ As a class, we will read a variety of texts which will prompt discussion and allow the students to practice their oral skills and build their vocabulary.

❖ Throughout the year your child will be assessed on their reading, writing, and oral skills in the form of assignments, formal tests, presentations, teacher evaluations and self-evaluations.

END OF CYCLE EVALUATION (End of Grade 6)

❖ Students will be expected to write MEQ exams (ministry) in math and language arts. These exams will count for a percentage of their final mark on the report card in each subject. (More information to follow as it becomes available from the ministry.)
